

Contents

01	Jacek F. GIERAS - Creativity and innovations in the 21 st Century	1
02	Jacek HANDKE Bartosz OLEJNIK Aleksandra SCHÖTT - Algorithms used to stabilize the frequency in the power system according to new European Commission Regulation	7
03	Marcin KACZMAREK , Adam KURZYŃSKI , Marcin SURLEJ , Michał BRZOZOWSKI - The preparations, course and results of the system test in which a hydroelectric power plant was used to start-up a thermal unit in a baseload power plant	11
04	Marek BOGDANOWICZ , Kazimierz KRUPNIK , Piotr MILLER , Marek WANCERZ - Analysis of phase shifting in sections of a power plant's auxiliary substation and related threats during switching operations	19
05	Zbigniew LUBOŚNY , Krzysztof DOBRZYŃSKI , Jacek KLUCZNIK - Virtual inertia in the power system	25
06	Ireneusz GRZĄDZIELSKI , Krzysztof SROKA , Daria ZŁOTECKA , Adam KURZYŃSKI , Marcin KACZMAREK , Michał BRZOZOWSKI , Jarosław BORODYNKO - System experiment of activating the power unit in Turów Power Plant as the verification of Dychów Hydropower Plant possibility of participating in the National Power System restitution process	29
07	Mariusz TALAGA , Adrian HALINKA - Synchrophasor technology utilization to implement wide area load shedding system	35
08	Joachim BARGIEL² , Bogdan MÓL , Daria MACHA , Marcin NIEDOPYTALSKI , Paweł SOWA - An analysis of possibility of use of technical and organizational solutions that improve local energy security and reliability of customer supply	41
09	Jacek BARTMAN , Aleksander MARSZAŁEK , Mateusz DRABCZYK - Analysis of voltage and current drawn by the water supply pump station	47
10	Piotr FABIJAŃSKI - The working area of the Unified Power Quality Conditioner for Power Quality Improvement	51
11	Mariusz ŚWIDERSKI , Michał GWÓZDZ - Solar Power Plant with Distributed System of PV Panels	55
12	Paweł PIJARSKI , Sylwester ADAMEK , Robert JĘDRYCHOWSKI , Klara SEREJA - Monitoring the impact of prosumer micro installations on the electrical parameters of low-voltage network systems	59
13	Bogdan KWIATKOWSKI , Jacek BARTMAN - The influence of mutual position of joints generating a bipolar field on the decay of the components of the vector of electromagnetic field	63
14	Jerzy MARZECKI - Modernization and development directions of low and medium voltage rural network	67
15	Marta BĄTKIEWICZ-PANTUŁA - Comparative analysis of production costs of electricity generated from various renewable energy sources	71
16	Mariusz SOCHACKI , Piotr GIEMZA - Analysis of thermal and reliability aspects on the example of luminaires with LED sources for workplace lighting	75
17	Paweł MICHAŁSKI , Jerzy CHUDORLIŃSKI , Karol MAKOWIECKI - Signal distribution system for synchronization of isolated current and voltage sensors	78
18	Radosław SZREDER , Przemysław SUL , Krzysztof PACHOWICZ - Fast electronically triggered spark gap for HV applications	81
19	Agnieszka DURAJ , Łukasz CHOMĄTEK - Detection of outliers in data streams using grouping methods	85
20	Kamila JADCZAK , Rafał BIAŁEK , Michał WIŚNIOŚ , Marek KUCHTA - Biomechanical conditions of the temporomandibular joint in terms of the measurement of the mandible displacement	88
21	Andrzej POPENDA , Marcjan NOWAK - Modelling of BLDC motor with different fashions of winding connection	92
22	Tomasz RYMARCZYK , Grzegorz KŁOSOWSKI , Tomasz CIEPLAK , Edward KOZŁOWSKI - Industrial processes control with the use of a neural tomographic algorithm	96
23	Tomasz RYMARCZYK , Michał OLESZEK , Jakub SZUMOWSKI , Paweł TCHÓRZEWSKI , Przemysław ADAMKIEWICZ , Jan SIKORA - A hybrid tomography for assessing the moisture level of walls and building condition	100
24	Mykhaylo ZAGIRNYAK , Roman MANKO , Tetyana KORENKOVA - The diagnostics of the emergency modes of the variable-frequency electric drive of the pumping complex	104
25	Humberto Xavier de Araujo , Antônio Evangelista de Freitas , David Nadler Prata , Ivan Roberto Santana Casella and Carlos Eduardo Capovilla - A Multiband Antenna Design Comprising the Future 5G Mobile Technology	108
26	Hamid MEHADDENE , Hassane MOHELLEBI , Azouaou BERKACHE - Eddy Currents Non Destructive Testing and Evaluation of Ferromagnetic Medium	112
27	Szczepan MOSKWA , Sławomir KOZIEL , Marek SIŁUSZYK , Zbigniew GALIAS - Application of Weather Model for Optimal Switch Placement in Distribution Power Grids	117
28	Paweł DERKACZ , Piotr MUSZNICKI - Gate Driver with Overcurrent Protection Circuit for GaN Transistors	123
29	Andrzej ŁEBKOWSKI , Kamil SOŁTYSIUK - Modeling and Analysis Range Extender for Battery Electric Vehicles	127
30	Artur J. MORADEWICZ - On / Off – board chargers for electric vehicles	136
31	Joanna BUDZISZ - The model of a vacuum circuit breaker for switching on capacitor bank	140
32	Łukasz GRĄKOWSKI , Katarzyna GĘBCZYK - Analysis of earth faults in the MV grid using the EMTP-ATP program	146
33	Wojciech ŻAGAN , Rafał KRUPIŃSKI - Visual and photometric consequences of using semi-spherical LEDs in diffuser shades	150
